### Annual Approval of Statewide Enterprise Systems Security CIW, HR/CMS, MMARS & InTempo

**1) REVIEW** security reports for each enterprise system generated for your department. Evidence of all system access reviews must be maintained at the department, and provided upon the request of the Office of the Comptroller and internal/external auditor(s). Examples of such evidence could include any actions taken (annotation(s) in the latest MobiusView (Luminist) report(s) reviewed, or your own detailed tracking log of system security roles changes) to change, revoke, or grant access to users. If there are no changes to the report(s) reviewed, examples of evidence include marking the first page of the report(s) reviewed with "No changes necessary to this *"name of the report"* report as of *"date"*." All changes, no matter the method, must be clearly marked, initialed and dated. If changes are necessary, your Department Security Officer can submit all change requests for staff access as appropriate.

**2) SUBMIT** this completed form.
